Dear Hiring Manager,

Thank you for the opportunity to apply for the Software Engineer role at your company. After reviewing your job description, I am certain that I have the necessary skills to successfully do the job and perform above expectations.

I am a former college student (3.787 GPA, Bachelor of Science in Electrical Engineering, Minor in Computer Science) having attended California Polytechnic State University. During my academic career, I also managed to accrue nearly 3 years of work experience. I have been working as an ASIC Design Engineer at Hewlett Packard Enterprise for the past 2 years. Please feel free to contact my boss on the ASIC design team Pery Pearson at pery.pearson@hpe.com for reference on my performance.

The value I will bring to your organization includes a strong skill set which I have developed through my academic and professional experiences. I am well-versed in software design and Python/C/C++ development. I have contributed significantly to team projects through my communication and collaboration skills.

I would be more than happy to elaborate on how my specific skills and abilities will benefit your organization. Please contact me at (916) 517-5470 or via email at micah.j.jeffries@gmail.com to arrange for a convenient meeting time. Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Micah Jeffries
